

Why Should All Dog Professionals Sign Up for a Dogsafe® Canine First Aid course?

Are you concerned about your legal responsibility for the dogs in your care?

Most dog professionals provide clients with waivers to sign before taking dogs into their care. However, waivers do not protect you against negligence. If you have not provided adequate canine first aid and safety training to yourself and your staff, you may be considered negligent if something should happen to a dog in your care. Dogsafe® can help by training your entire staff.

Have you thought about your business reputation if a dog becomes seriously injured while in your care?

You probably started your business because you love dogs and we know you would want to do the best for them. You have also worked hard to build your business and your reputation can be crushed in a second if you are portrayed negatively in the media. Imagine the difference of public opinion if you confidently state your positive actions in response to an accident (*they happen!*) versus a wavering, ineffective response that points to negligence. Dogsafe® Canine First Aid courses can provide the confidence you need to act positively in any emergency involving a client's dog.

Do you want to provide the absolute best for the dogs in your care?

We share your enthusiasm! You take pride in your business and Dogsafe® wants to help you provide the best possible care you can for your clients. Dogsafe® courses will teach you everything you need to know to confidently deal with any emergency involving a dog.

As a business owner, you won't have to worry about the "what if" anymore. Dogsafe® will give you peace of mind.
